DELTA 54 CARBON 2017 M/Y NORSEMAN

SISTERSHIP

Only of two pre-owned Delta 54 Carbons available for sale in the USA.

Constructed in carbon fiber, the 54 performs like a ski boat, with smooth, responsive steering and super tight turns. With her signature styling, the 54 turns heads both at sea and on the docks.

The 54’s versatile exterior perfectly complements her distinctly Scandinavian, impeccably finished interior.
