

PRIME

MEGAYACHT PLATFORM

Welcome to the PRIME Megayacht Platform | The Future of Semi-Custom.

Our belief is that those who invest time and energy into building a megayacht should be rewarded with a creation which represents his or her style.

Much like a custom home builder, PRIME presents you with a fully-engineered foundation upon which to build your own unique megayacht masterpiece.

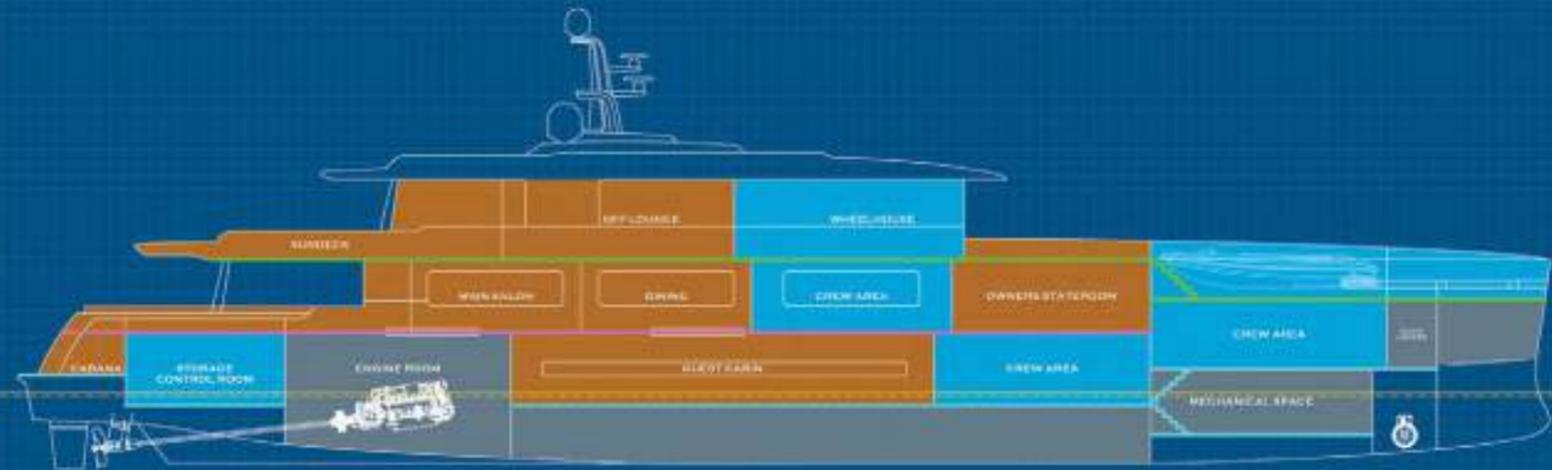

“Be Fearlessly Authentic.”

– S. Adler

The **EVOLUTION** of a **PLATFORM.**

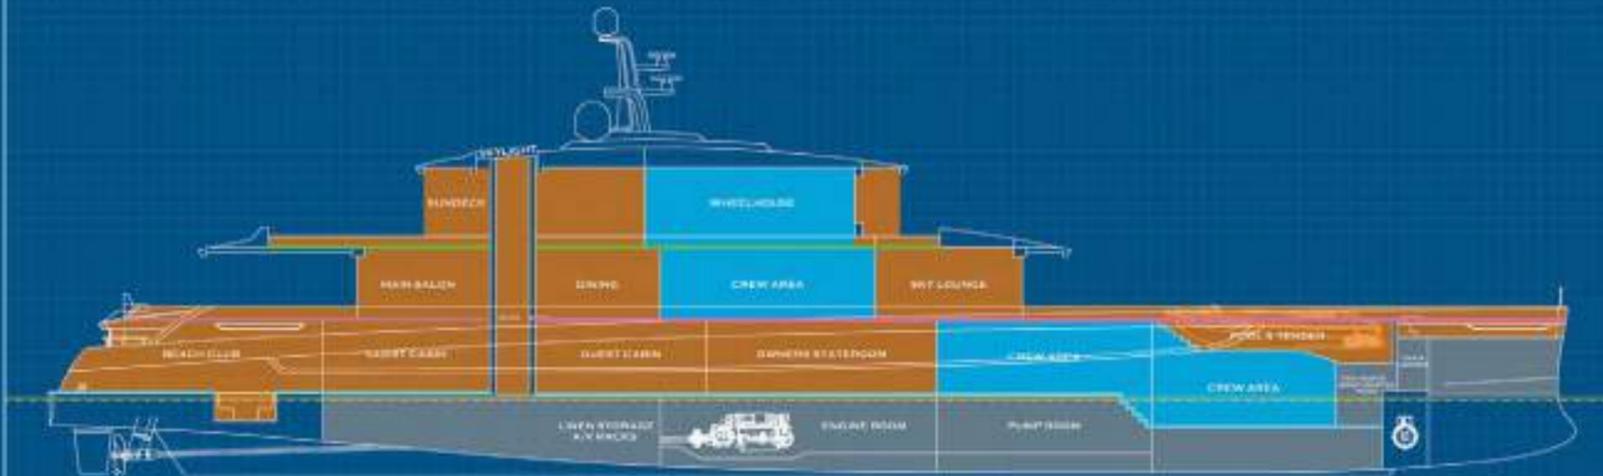

Traditional 50m Arrangement.

Guest and technical areas are spread out, creating privacy and crew-efficiency issues. Access to the Beach Club is hampered by staircases, and the foredeck is typically off-limits.

PRIME 50m Arrangement.

***Resort Yacht layout shown.*

PRIME was developed to unite friends & family. It provides unrestricted access to guest areas of the yacht by removing all steps, and creates new entertainment areas within the same 499GT space.

The **EVOLUTION** of a **PLATFORM.**

"A picture is worth a thousand words."

- Chinese proverb

A **ROOM** *with a* **VIEW**

The PRIME Panorama Lounge allows owners and guests to reclaim the best seat in the yacht, whether at sea or docking at new ports of call. Discover what you've been missing ...

***“Design is not just
what it looks like and feels like.***

Design is how it works.”

– Steve Jobs

PRIME is *the Fifth Avenue experience.*

PRIME offers multiple entertainment areas to be enjoyed day or night, at rest or underway.

All guest areas, interior and exterior, are fully accessible to everyone, without the need for stairs.

Outdoor entertaining is further enhanced by flexible furniture arrangements, to accommodate larger groups or intimate gatherings.

The Collection.

MAHARANI

by Vripack

Vripack's Maharani puts the owner and guests first in this "human-centred" design.

“

It's new. It's revolutionary. [Maharani] will turn the superyacht industry on its head. There is no other 50 metre that has a same-level deck from the swim platform to the beach club and into the guest accommodation.”

-- Bart Bouwhuis

The Collection.

The world's Top Designers are invited to create design masterpieces utilizing the PRIME Megayacht Platform.

These limited series designs comprise what we call **The Collection**.

NEXT

by Azure Yacht Design

“Our goal (with NEXT) was to create a 70-meter experience on a 50-meter yacht. NEXT is designed for the jet set; it will be great in any type of metropolitan environment, luxury marinas, etc. It's also created for pure nature ... places where you just want to sit at anchor and enjoy everything around you.”

– Bob van den Meiracker

The Collection.

DREAM

by Azure Yacht Design

“

To really prove a platform like PRIME, and after producing a pure design such as NEXT, we felt the need to journey to the opposite side of the spectrum, and create a modern, sporty design.”

– Bob van den Meiracker

The Collection.

PRISMA

by De Basto Designs

“

The fact that we have a set platform, can only be a source of creativity, not a limitation. If you have well-defined parameters, then you can be very creative.”

– Luiz de Basto

The Collection.

CALOU

by Reymond Langton

“CALOU is designed with long, elegant flowing lines creating a clean, sharp profile. The surfaces of the yacht are dramatically sculpted, giving beautiful form with softly grading shadows contrasting with sharp contours.”

– Andrew Langton

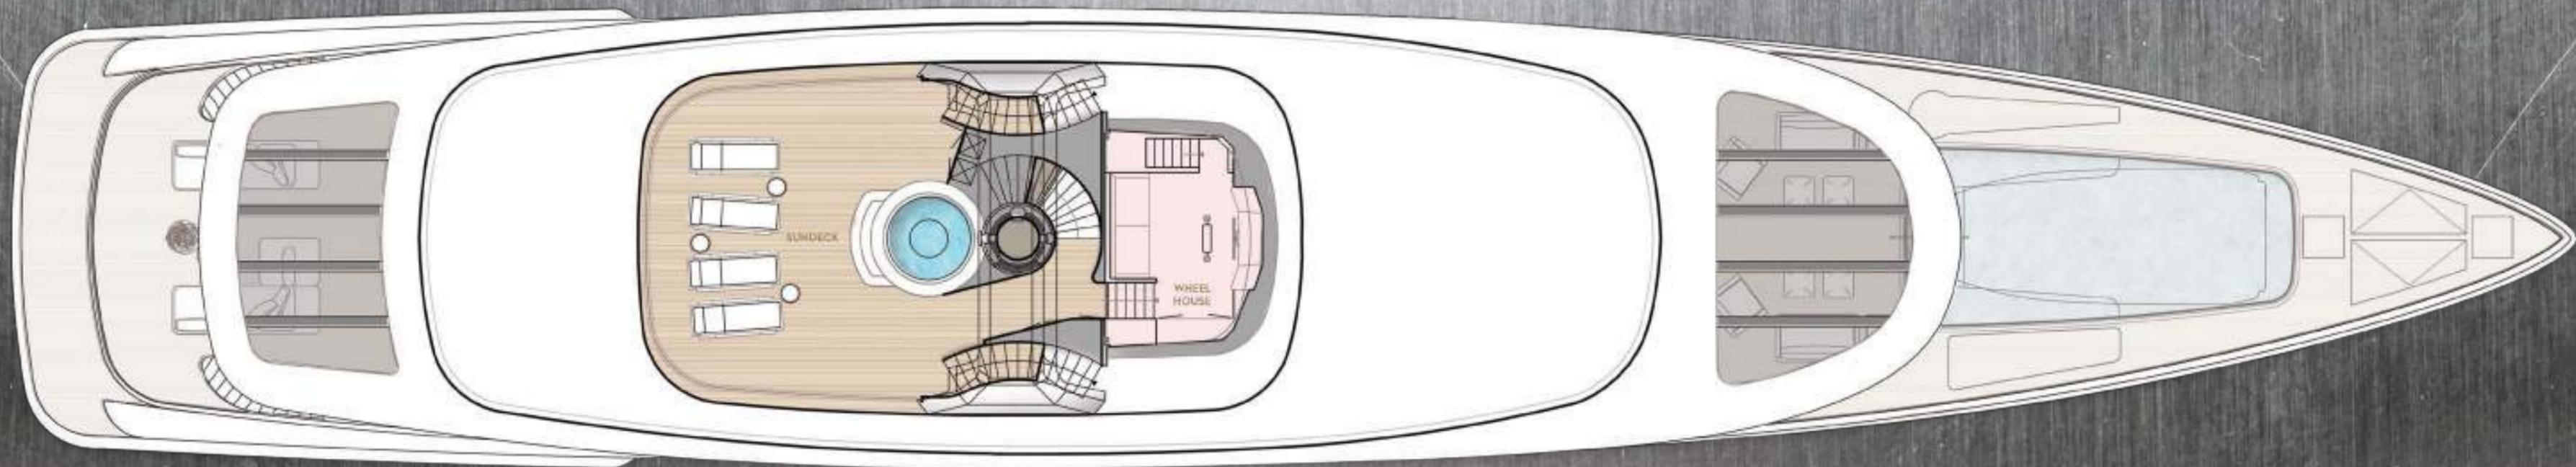

Bespoke Reality.

PRIME offers you the sophistication of a custom build with the time- and cost-savings benefits of a semi-production series. Choose from The Collection or take advantage of PRIME's flexibility to create your own masterpiece.

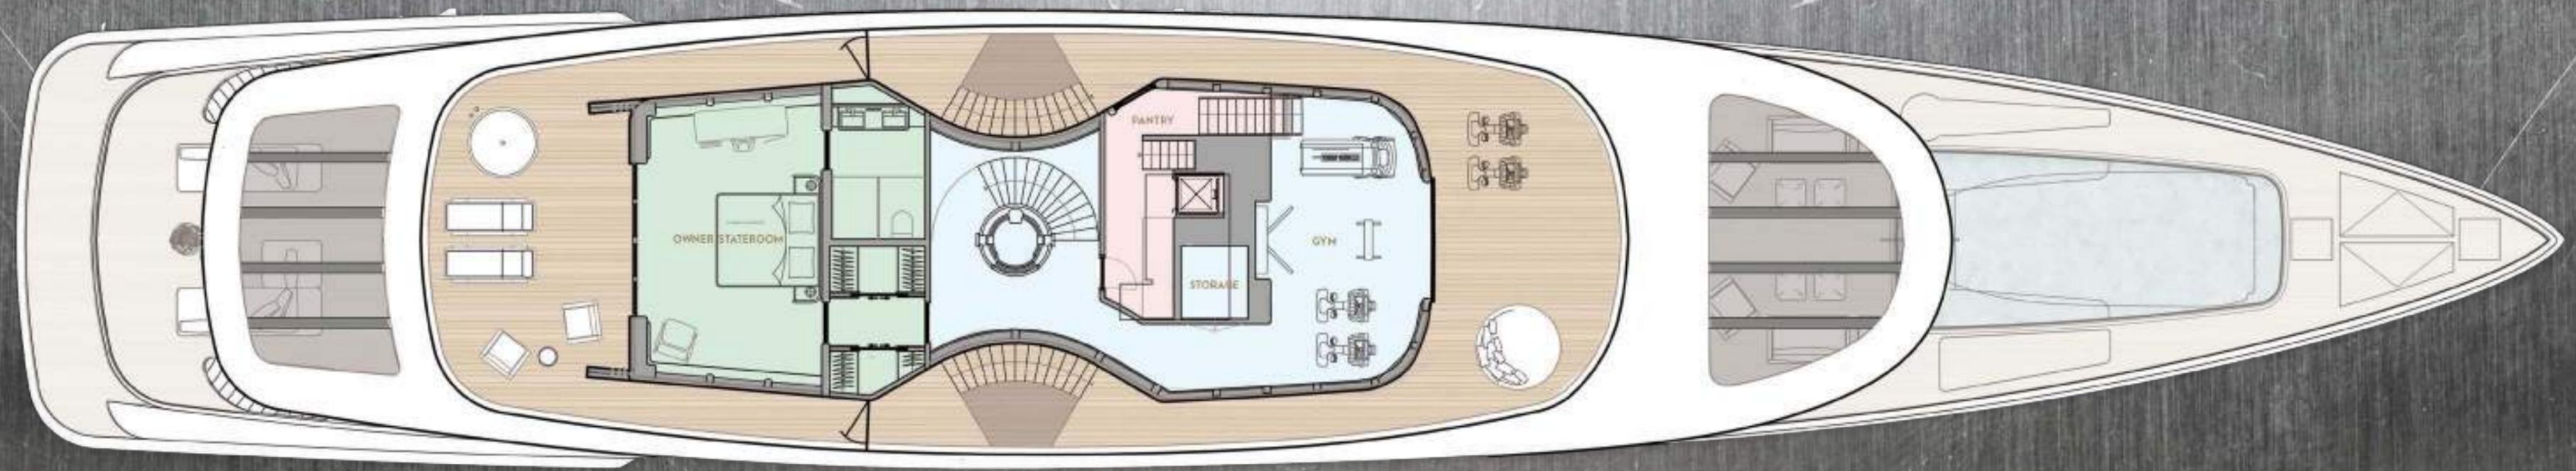

Create with Confidence, while benefitting from a thoroughly engineered platform designed by an elite team of naval architects, master builders and interior designers.

The PRIME Build Team.

Erik Spek
Azure Naval Architects

Based in the heart of the Dutch yachting industry, Azure Naval Architects has extensive experience in yacht design, naval architecture and engineering. Their award-winning portfolio includes numerous renowned new build superyacht projects in lengths ranging from 30 to 160 metres.

“PRIME offers a full-displacement 499GT motoryacht whose length and all-aluminum construction replicates the comfort and hydrodynamics of large, sleek sailing yachts.”
- Erik Spek, Azure Naval Architects

Jim Ruffolo
Burger Boat Co.

Burger Boat Company, founded in 1863, is an American shipyard with a long tradition of constructing an extensive variety of vessels to meet the highest expectations. Burger designs and builds custom yachts made of aluminum and/or steel in a community known for extraordinarily skilled professional shipbuilders who take great pride in the quality of their work.

Daan Balk
Bloemsma Yachts

For seven generations, the historic Balk family has consistently delivered premium yacht construction in The Netherlands. Now at the helm of Bloemsma Yachts, these award-winning Master Builders further cement their position in the luxury yacht market.

“As part of the PRIME development team, it is important for us to assure owners of Bloemsma’s premium build standards, reliability and serviceability for all our new builds. We proudly stand 100% behind our work.”
-Daan Balk, Bloemsma Yachts

“

The art of simplicity is a
puzzle of complexity.”

– Douglas Horton
